Education

The Hong Kong University of Science and Technology (HKUST) 2023-2027

Lund University, Sweden (Exchange studies) 2026

- BENG Decision Analytics + Extended major in Artificial Intelligence + Minor in Business
- Engineering E2i Peer Mentor, ECE Makerspace Cofounder/Director of Internal Development
- Courses:
 - o Optimization in Financial Engineering, Stochastic Models, Machine Learning, Prescriptive Analysis
 - o Data-Driven Quality Technology, Design for Global Health, Supply Chain Analytics, Computer Organization

Po Leung Kuk Ngan Po Ling College 2017-2023

- International Baccalaureate (Bilingual Diploma) 2021-2023
- Math AA, Physics, Economics Higher Level, Chemistry, English A, Chinese A Standard Level
- A in Math Extended Essay (4000 word academic research report)
 - o Evaluating the use of Small-Angle Approximations through the applications of the Tautochrone Problem
- Astronomy Club Chairman 2021-2022

Work Experience

Internship at Deloitte Touche Tohmatsu 2026/7/13-2026/12/31

- Assisted in Project Management for clients in financial services and arts industry.

Internship at Everest Ventures Group 2025/12-2026/1

- As an investment analyst intern with a focus on venture capital and market research, I conducted in-depth research on multiple deals, including financial forecasting, competitive analysis and risk assessments for early-stage startups.
- Produced detailed memos which informed our team's investment thesis on AI and web3 related deals.

HKUST ECE Makerspace Society Co-founder, Director of Internal Development 2024-NOW

- One of four people initiating ECE Makerspace society under the Electrical and Computer Engineering department.
- Our work are on Instagram [ecemakerspace_hkust](https://www.instagram.com/ecemakerspace_hkust), which includes workshop content and community events such as industry day where we hosted faculty members and industry professionals to showcase project incubated in Makerspace.
- Scaled from 0 to 120 active members, leading a team of 5
- Facilitated 2M hkd in funding from the department for renovation.

Internship at Baguio Green Tech Limited 2024/6/18 – 2024/8/31

- Data Engineering internship in developing data pipelines.
- Google form system on IOT devices maintenance report on PowerBI querying and visualization Excel, google app script.
- Flask Web app for Raw data parsing on IOT devices creating pivot tables and matplotlib visualizations.
- NodeJS Whatsapp web api implementation for scheduling and reporting cases, including real time chat logging.
- AI recycling fraud recognition from camera images by segmentation and detection with YOLO, UNet, Pytorch.

SIGHT at HKUST Student, SIGHT Leader 2024/1/29 – NOW

- Semester-long project consulting and deploying improvements for a Sri Lankan upcycling enterprise. Improved their ERP workflow efficiency through digital transformation with Airtable database system
- Designed specific behavioral metrics (responsible consumer index) and loyalty points IBP, to allow better analysis and making data informed business decisions.
- SIGHT leader, guide future students in the course, improve course teaching.

Undergraduate Researcher on Embodied AI and Vision-based models for robot arm manipulation 2024/12-2025/4

- Work closely with a Phd student under the supervision of Prof. Qiming Shao. Deploying and testing cutting-edge World Foundation models on object detection, segmentation, pose estimation algorithms on robotic arm.
- Conducted simulations and synthetic data generation for task-reward-based reinforcement learning for vision-language action model development.

SOLOMON Learning ISDN4000S project 2025/6 – 2025/7

- One month project with SOLOMON LEARNING under their Goodclassai initiative.
- Our project adopts interactive AI tools to engage student learning in subjects and improve AI literacy, includes prototypes for students to intuitively identify facts and potential risks within each AI response and offer tips based on the question and user responses, guess prompts and interactive image generation classroom activities

The Institution of Engineering and Technology (IET) Student Section IETSS organizing committee 2024/1/29 – NOW

- Part of organizing and promoting team for sight visits and mentorship program. Served as MC for the Youth mentoring programme 2024, 2025
-

Other Experiences

Cathay Hackathon 2024 Semi-finalist 2024/9-2024/11

- Product master role in a 4 man team, involved creating a simple OCR system and designing a data pipeline and physical container with CAD for efficient and digitalized warehouse operations. Pitching in Cathay City

HKUST Engineering School Peer Mentor 2024/8 - NOW

- Mentored freshmen as part of their HMAW1905 course, including school life, major selection, career advice, and sometimes assist E2i team in event organizing.

Opera Singer/Chorus member Madama Butterfly 2025/5 – 2025/7

- Sang the role Registrar and chorus parts in a local production of Madama Butterfly in Hong Kong City Hall.

Internship at Laboratory for Space Research University of Hong Kong (LSR) 2021/07/26 - 2021/08/06

- Worked on a research project on the size distribution of bipolar and round "Planetary Nebulae" from the HASH PN database in HKU Cyberport

Part-time Starbucks Barista 2023/7 – 2023/10

- Two months part-time in Elements Starbucks Kowloon station, one of the busiest locations in Hong Kong.
- Gained operational and organizational understanding and experience working under an intense environment.

Part-time Marketplace Trainee 2023/7-2023/8

- 1.5 month part-time in supermarket, gained operational and real world understanding of fast-moving goods industry.

Languages

English

- Native (IELTS 8.0)

Mandarin

- Native (Took DSE curriculum before taking Chinese A for IB)

Cantonese

- Native

Other Skills

- Individual/group project management skills: Loop, Discord, Teams
- AI coding and software development agentic tools: Cherry Studio, Opencode, Openrouter, VS code
- Design and CADing tools: Figma, Fusion 360, Canva, Photoshop, Lightroom, INDESIGN
